

# Professional Profile for Michael Terry

## Senior WHS Consultant

### About

Michael is a Senior WHS Consultant with Kitney OHS and has over 15 years' experience working as a health and safety professional and ergonomist across a variety of industries. Michael has worked with large corporate organisations including Queensland Health and Australia Post as well as small and medium sized organisations across Queensland.

Michael was also the Brisbane Manager for the Chamber of Commerce and Industry Queensland (CCIQ) providing WHS services to CCIQ members and non-members in the Brisbane area.

Michael has a strong focus on targeted risk control, preventive solutions and engaging with managers and workers at all levels to develop their understanding, skills and capabilities for effective WHS management. Michael has a relaxed and engaging approach to work, underpinned by a strong knowledge base of WHS legislation, codes of practice, industry standards and best practice.

### Experience

Michael has experience in a range of industries and organisations including commercial, manufacturing, heavy industry, retail, health care, aged care, commercial offices and low rise construction. Michael has a good understanding of the differing business needs of small, medium, large and corporate organisations and is skilled at developing workable solutions to meet immediate and longer term business needs.

Michael is a Registered Physiotherapist and a qualified trainer and has many years' experience providing a range of WHS training, including manual handling and people handling, Cert IV in Occupational Health and Health Safety (RTO training), Health and Safety Representatives and WHS Committee. Michael provides workshops and coaching on officers WHS due diligence, WHS legislation and duties, safety leadership, risk management and incident investigation.

Michael has developed and implemented document based and cloud based WHS management systems in a range of organisations including manufacturing, retail, construction, health care, aged care and commercial. Michael completes lead and internal audits against AS 4801: Occupational Health and Safety Management Systems.

Michael also provides ongoing manual task risk management and training services to a number of organisations, specialising in health, aged and disability care.
